Gaming Wi-Fi: Connect your devices

This article reviews the College’s gaming wi-fi network pilot and how to connect your devices.

Before You Start, you may need access to the following:

- a College account and password
  (e.g., username@brynmawr.edu or username@haverford.edu)
- a device that supports wireless internet connections

This wi-fi network is a pilot with no guarantee of service.

It is only available in Bryn Mawr College dormitories.

Please send all feedback to the Help Desk.

How it works

- Each gaming device will need to be registered annually
- At the end of the academic year, all registrations will be deleted
- Each connection has a limited download/upload speed to ensure stability

Step 1: find your MAC address

This wireless network will not function with smart home devices or media streaming devices. For more information, see the What NOT to bring section of Students: What tech to bring to College.

Determine your device's MAC/Hardware address:

- Nintendo Switch
- Playstation 5
- Xbox Series X and S
Step 2: register

Email help@brynmawr.edu with the following information:

- **Subject:** Gaming Wi-Fi Pilot Registration Request
- **Full Name**
- **College Username**
- **Device Manufacturer** (e.g., Microsoft, Sony)
- **Device Model** (e.g., Xbox Series X, Playstation 5)
- **Device MAC address** (see above)

Step 3: connect

All network activity must abide by the [College’s Acceptable Use Policy](#).

Once your device is registered, you will receive a confirmation email and the current pre-shared key.

1. Access your device's network settings
2. Select the Gaming-Pilot Wi-Fi network
3. Enter the pre-shared key as the password
4. Connect!

Questions?

If you have any additional questions or problems, don't hesitate to reach out to the [Help Desk](#).
