Flexible Content Items

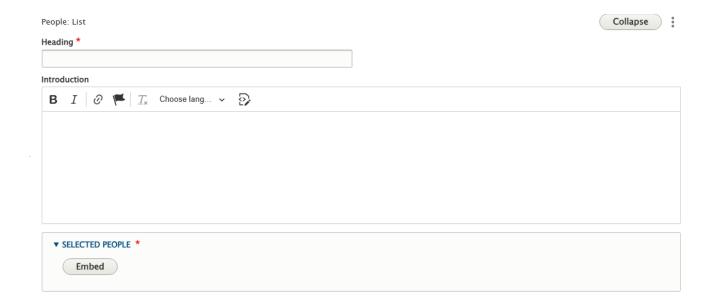

In our first article about Flexible Content Items, we discussed a general overview of what Flexible Content Items are, how to use them and where to find them.

In this article we discuss how to create the following Flexible Content Items:

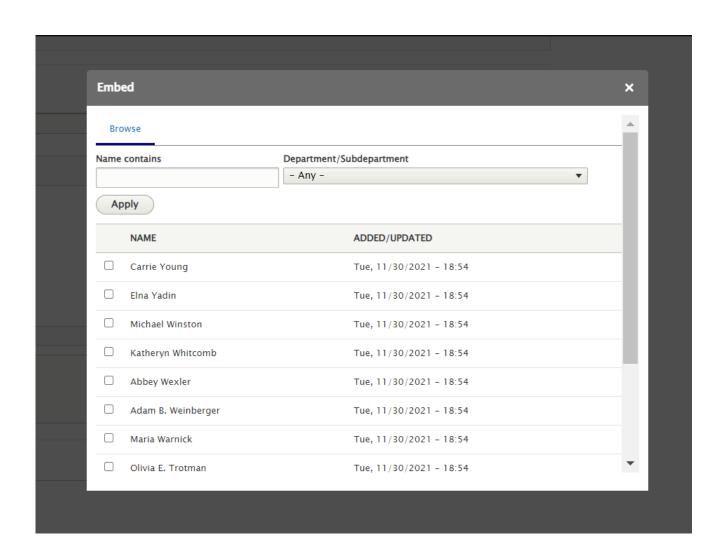

People: ListFeature: LargeFeature: MediumFeature: QuoteImage Detail: Large

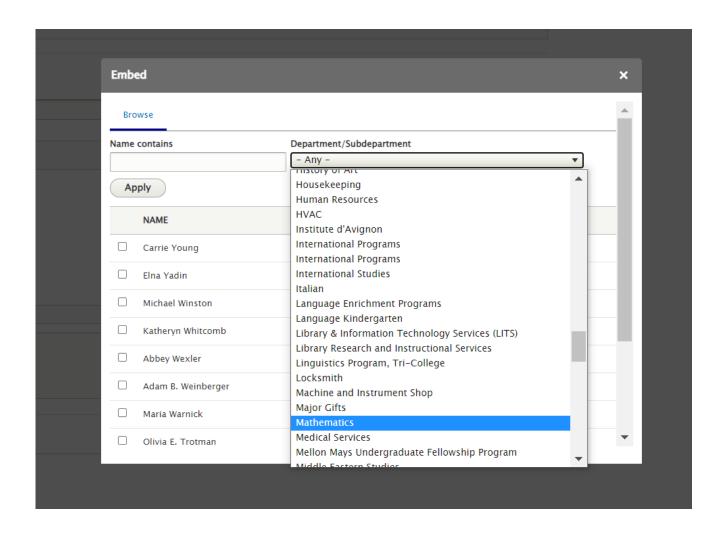

People: List

This Flexible Content Item allows you to curate a list of people to make a department or lab people page. It works similarly to how you can select News Items where you can only make selections on one page, embed them and then select more from a different page of the people picker pop-up

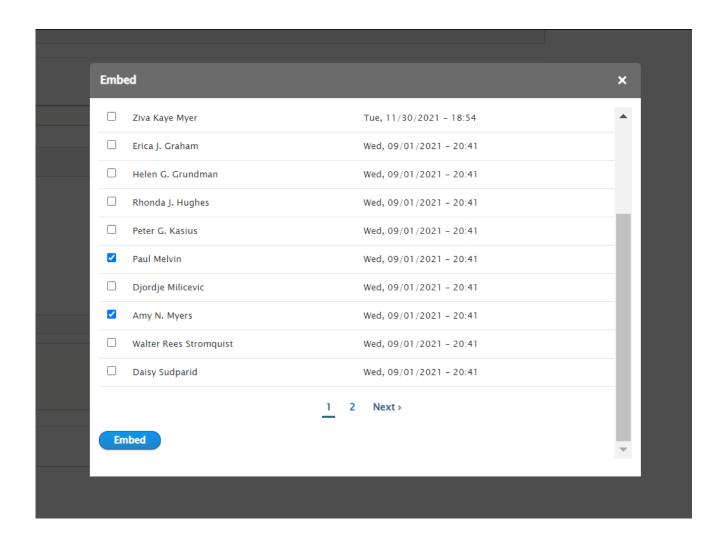

You can search for people by their name, or department

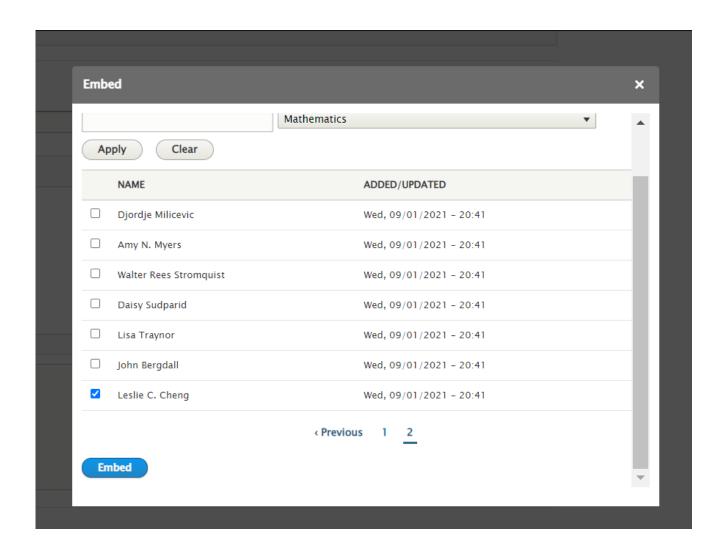

Just remember to hit Apply once you have put in your search criteria in the filters at the top

Once you have embedded people from one page of the picker, you will have to click Embed and then reapply the filters to find more folks on the next page of the picker for your search criteria

You can also drag and drop your selections to reorder folks

You can also use the Remove button to remove that person from the list you are creating. Note: This will only delete them from the listing. They will still appear on other departments' listings if applicable.

LITS People list

This is the intro to people list. Text can be bold, italic or linked.

Try not to make it too long, though this is an optional field

Feature: Large

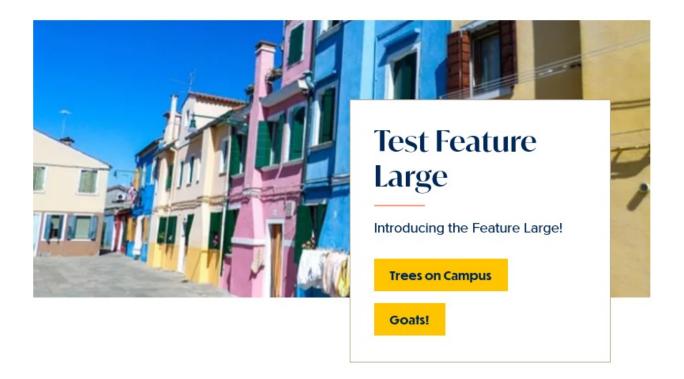

This Flexible Content Item is a great way to draw attention to an important program or feature. This Feature Large has all the pieces overlaid on the image. It has an image, heading, intro field and space for up to three links as well as an additional dropdown of links (Feature Child: Dropdown)

You can also have a quote (Feature Child: Quote), statistic (Feature Child: Statistic), caption (Feature Child: Special Caption) or link to a video (Feature Child: Video) displayed prominently.

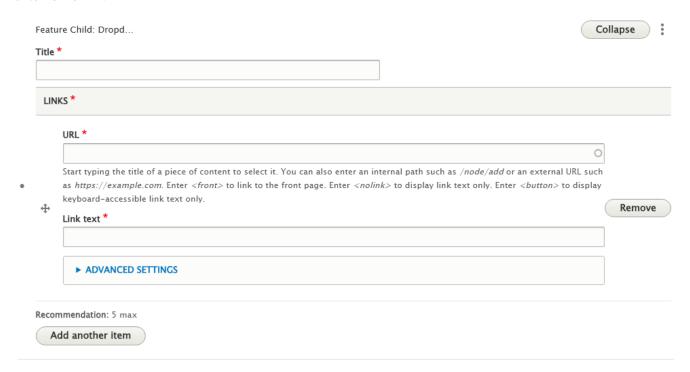

/node/add or an external URL such	ontent to select it. You can also enter an internal path such as as http://example.com . Enter front to link to the front text only. Enter button to display keyboard-accessible
Link text	
DROPDOWN	
Add Feature Child: Dropdown	
Add Feature Child: Dropdown	_
Add Feature Child: Dropdown ITEM BLOCK	
Add Feature Child: Dropdown ITEM BLOCK Add Feature Child: Quote	

This is the Feature Large without any Child Features

Feature Child: Dropdown

If you choose to add Feature Child Dropdown, you will get these fields to fill out. Note that you can add up to 5 items maximum.

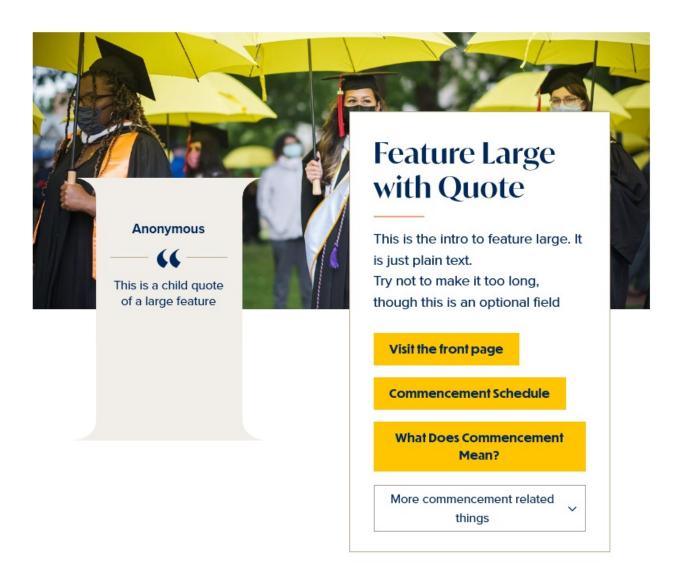

Feature Child: Quote

If you choose a Feature Child Quote, you will get these fields to fill in

Here is how it looks with a dropdown and a child quote

If you want to change the Block Item for a different one, simply edit the page, expand this Flexible Content Item and the scroll down to the Item Block, click the dots and select "Remove"

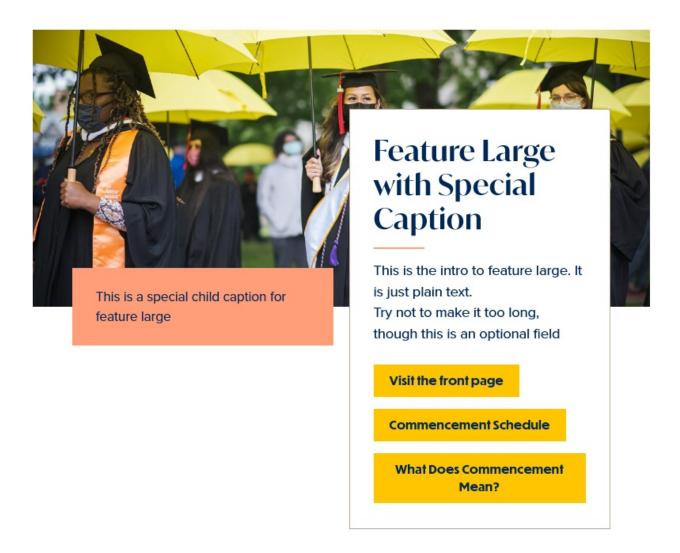

Feature Child: Special Caption

If you choose Feature Child Special Caption you will get these fields to fill in

This is what it looks like with a Special Caption

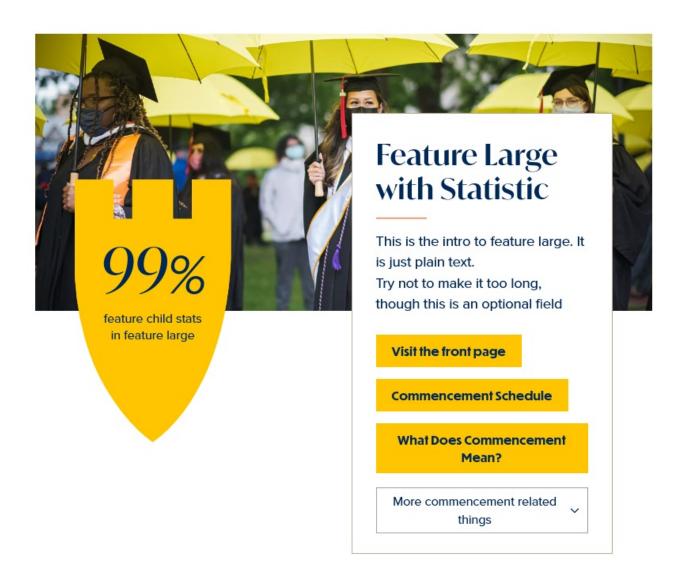

Feature Child: Statistic

If you choose to add a Feature Child Statistic you will get these fields to fill in

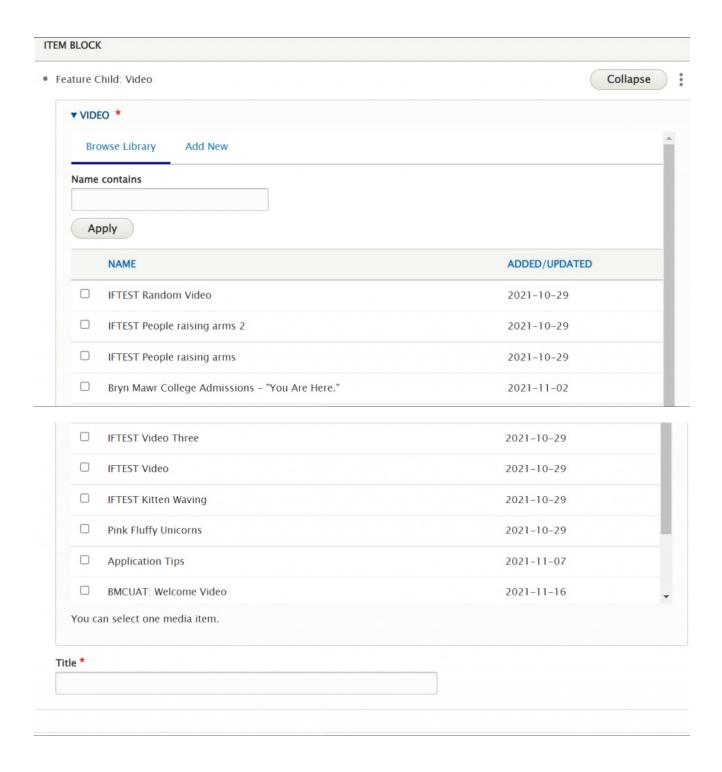

TEM BLOCK	
Feature Child: Statistic	Collapse
Number *	
Limit to (4) characters to retain position within colored background.	
Description *	

This is what it looks like when you add a Feature Child Statistic

Feature Child: Video

If you choose to add a Feature Child Video you will get these fields to fill in

Adding a New Video

If we click the Add New tab we will see a form to fill out to add the video item to the library.

Only fill in the required fields.

The Name field and URL field are required. It is important to name your video clearly, but succinctly.

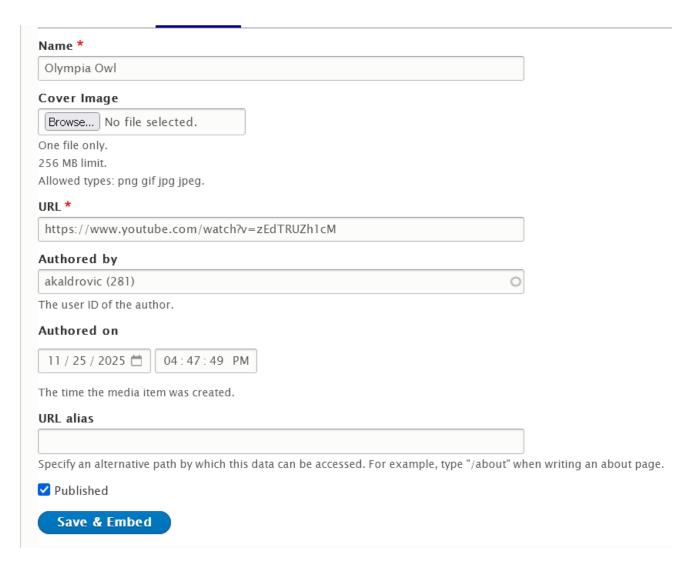

The Cover Image can be ignored as no image appears when you select it for any of the Feature Child videos.

ature Child: Video	Collapse
▼ VIDEO *	
Browse Library Add New	
Name *	
Cover Image	
Browse No file selected.	
One file only.	
256 MB limit.	
Allowed types: png gif jpg jpeg.	
URL*	

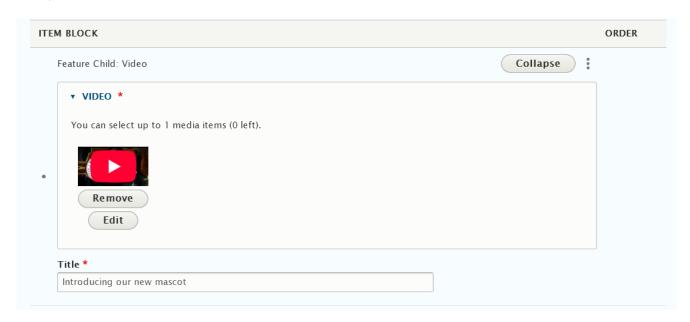

The next field that you will need to fill in is the URL field. This is the address of the YouTube or Vimeo video.

Scrolling down, you will see that the rest of the fields have defaults that can be left.

Press the Save & Embed button.

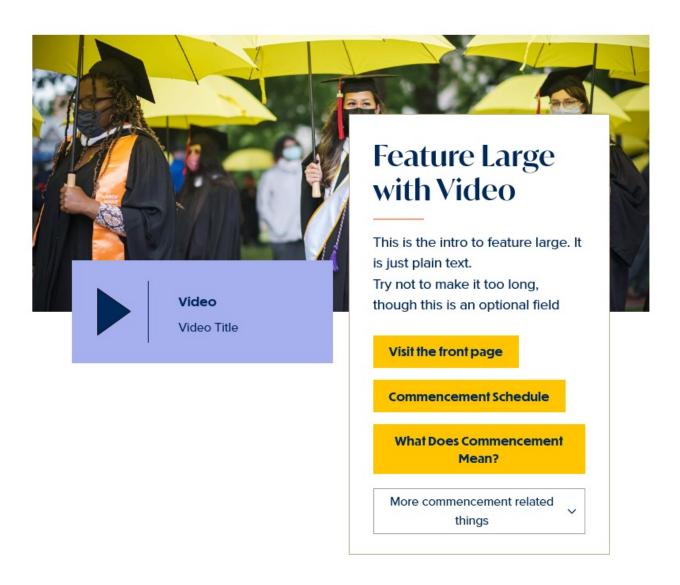

Now you will see the Feature Child Video in the edit screen

Clicking on the "Remove" button will remove the Remote Video from our Feature Child Video.

Clicking on the Edit button will open a modal window with the video edit screen. Only do this with a new video you have *just added* to the Remote Video library.

This is what it looks like to add a Feature Child Video

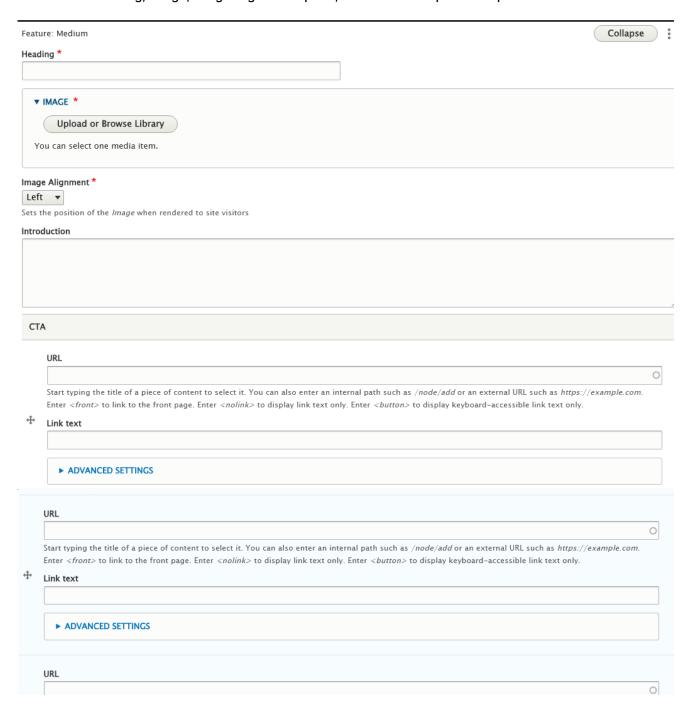

Back to Top ^

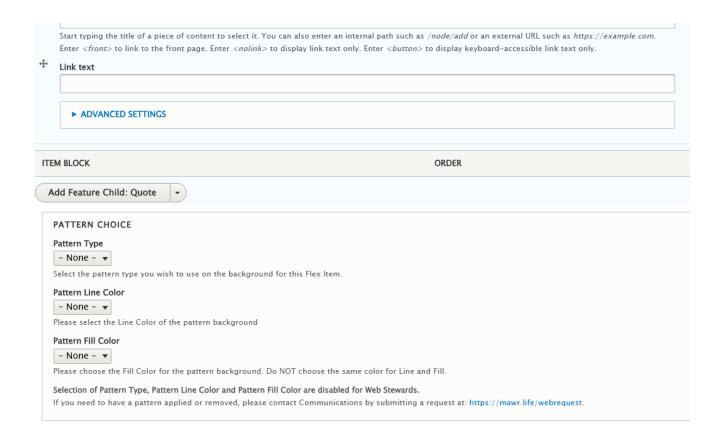

Feature: Medium

What is the difference between Feature: Large and Feature Medium?

- Feature: Medium is a more subtle way to feature content than the Feature: Large as it isn't a full-width display.
- Feature: Medium presents the image as smaller than in the Feature: Large
- Feature: Medium arranges the text and extras around that image differently than in Feature: Large.

This Flexible Content Item is a great way to draw attention to an important program or feature. This Feature Medium has only the quote, statistic, caption or link to a video overlaid on the image, if you choose to add one. It has a heading, image, image alignment option, intro field and space for up to three links.

Please note that the Office of Communications and Marketing applies Patterns sparingly at their discretion.

Web Stewards will only be able to create Feature Medium Flex Items with the Default white background.

This is the Feature Medium without any Feature Child

Feature: Quote

This Flexible Content Item is a nice way to feature a photo, quote, and attribute (Name) to highlight something. No need to put quote marks around the quote.

Optional Background Color

If you check the box for the Background Color Option, the Feature Quote will have a Chiffon background color, the Default (not checked) is White

Fill in the required fields and then press Save to see the Feature Quote on your page

Here is a Feature Quote with the Default white background

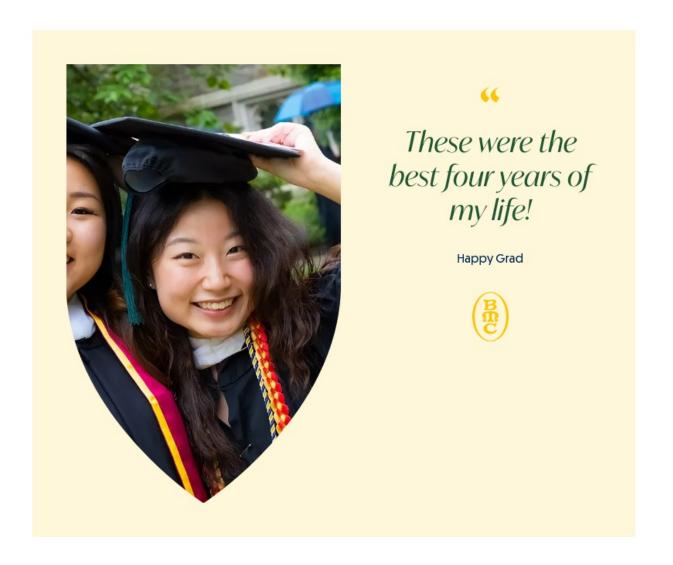

quote. This is just a plain text field
