

Drupal - Advanced: Flex content for special roles

Last Modified on 11/13/2023 3:18 pm EST

Flexible Content Items

In our [first article about Flexible Content Items](#), we discussed a general overview of what Flexible Content Items are, how to use them and where to find them.

In this article we discuss how to create the following Flexible Content Items associated with Homepage, Honor Roll, and Course Editor roles:

- Slide: Homepage Hero
- Homepage Feature: Large
- Homepage Feature: Medium
- Homepage Feature: Story
- Course Code
- Description Code
- Donor List

Flex Content for Special Roles

Within our website, we have different types of content types (like *Basic Page* and *News*) and different types of permission levels (like *Web Steward* and *Admin*).

For the Flexible Content Items we will cover in this article, it is important to know that they are available only on specific content types, and further only people with specific roles will be able to access them.

If you need help editing a page that you don't have access to, please reach out to Communications today at communications@brynmawr.edu.

Content Types with special Flexible Content

[Homepage content type](#) can only be edited by Homepage Editors, Site Editors and Admins and has the following extra Flexible Content items available:

- Slide: Homepage Hero
- Homepage Feature: Large
- Homepage Feature: Medium
- Homepage Feature: Story

Course content type can only be edited by Course Editors, Site Editors and Admin and has the following extra Flexible Content Item available:

- Course Code

Program Description content type can only be edited by Course Editors, Site Editors and Admin and has the following extra Flexible Content Item available:

- Description Code

Honor Roll content type can only be edited by Honor Roll Editors, Site Editors and Admin and has the following extra Flexible Content Item available:

- Donor List

If you need help editing a page that you don't have access to, please reach out to Communications today at communications@brynmawr.edu.

Homepage Flexible Items

The Homepage content type has all the regular Flexible Content Items available, as well as these three special Homepage ones:

- Homepage Feature: Large
- Homepage Feature: Medium
- Homepage Feature: Story

The Slide: Homepage Hero is also considered a Flexible Content Item because you can make more than one Hero Slide and you can shuffle their order around within the Hero Carousel.

Read more about these special Flexible Content Items below.

To see them in use on a sample homepage with all content, please visit:

<https://www.brynmawr.edu/node/59246> □

To read more about the Homepage Content Type and the Homepage Editor, please refer to this Homepage Content in Drupal article.

Homepage Feature: Large

This is for *HOMEPAGE EDITOR*, *SITE EDITOR* and above and is only available for the [Homepage Content Type](#).

This Flexible Content Item is a great way to draw attention to an important program or feature. This Homepage Feature Large has one of the Feature Child block options overlaying the bottom portion of the image (see each example below). It has an image, title, intro field and space for up to three links.

*This is for **HOMEPAGE EDITOR**, **SITE EDITOR** and above and is only available for the [Homepage Content Type](#).*

This Flexible Content Item has a few more fields than a typical Flexible Content Item Story 1-up. This allows you to really feature a story and add extra links and text to it.

Here we see the fields available: Heading, Introduction, CTA, story, story title (this is something like Academic Excellence, to help promote certain categories), quote alignment, a The Details section that helps you provide more links and additional text to further enhance this content item.
