Last Modified on 07/27/2022 4:07 pm EDT

Note: The homepage content types are only available to Site Editors and people with the Homepage Editor role. If you have suggestions for homepage content, please contact College Communications.

Please visit this link to view the Special Role Session video.

Homepage Editor

This is a supplemental role designed specifically for Web Stewards who administer Graduate or Postbac websites within brynmawr.edu. If you are in GSAS, GSSWSR or Postbac and feel you need this permission level, please contact Communications communications@brynmawr.edu to discuss your needs.

Homepages

There are Homepages for:

- The main https://www.brynmawr.edu page,
- GSAS (https://www.brynmawr.edu/gsas),
- GSSWSR (https://www.brynmawr.edu/socialwork)
- Postbac (https://www.brynmawr.edu/postbac) homepages.

You can see all of them if you Click on Content in the Admin Toolbar

Or visit https://www.brynmawr.edu/admin/content

Once there, select Content Type=Homepage and press the Filter button. If you are a Homepage Editor,
you will only see *Edit* buttons next to the Homepages that you are allowed to edit.

The **Homepage Content Type** consists of *Title, Hero carousel, and Flexible Content Items*.

Here is the screen you see when creating a new Homepage. Notice that there is no URL alias specified. This only gets set when the page is to go live.

Slide: Homepage Hero

This is for HOMEPAGE EDITOR, SITE EDITOR and above and is only available for the Homepage Content Type.

If only one Hero slide is added, it will be just a hero image. Once you add a second one, it becomes a carousel.

Only a title and an image are required for a Hero slide.
If you would like a link on the slide, you can choose between a CTA or a Video Link.

Here is what each type of link looks like on the slide.

This Flexible Content Item is a great way to draw attention to an important program or feature. This Homepage Feature Large has one of the Feature Child block options overlaying the bottom portion of the image (see each example below). It has an image, title, intro field and space for up to three links.

You can also have a quote (Feature Child: Quote), statistic (Feature Child: Statistic), caption (Feature Child: Special Caption) or link to a video (Feature Child: Video) displayed prominently.

Once you have a Feature Child option filled in, you are able to remove it if you want to change what you use there. Simply click the three dots on the right of that item and select Remove. Then you can decide to use a different option. Please note that once you remove it, you would have to create it from scratch if the removal was accidental.

This Flexible Content Item has a few more fields than a typical Flexible Content Item Story 1-up. This allows you to really feature a story and add extra links and text to it.

Here we see the fields available: Heading, Introduction, CTA, story, story title (this is something like Academic Excellence, to help promote certain categories), quote alignment, a The Details section that helps you provide more links and additional text to further enhance this content item.
