Drupal - Special Role:
Homepage content in Drupal

Note: The homepage content types are only available to Site Editors and people with the Homepage Editor role. If you have suggestions for homepage content, please contact College Communications.

Please visit this link to view the Special Role Session video.

Homepage Editor

This is a supplemental role designed specifically for Web Stewards who administer Graduate or Postbac websites within brynmawr.edu. If you are in GSAS, GSSWSR or Postbac and feel you need this permission level, please contact Communications communications@brynmawr.edu to discuss your needs.

Homepages

There are Homepages for:

- The main https://www.brynmawr.edu page,
- GSAS (https://www.brynmawr.edu/gsas),
- GSSWSR (https://www.brynmawr.edu/socialwork)
- Postbac (https://www.brynmawr.edu/postbac) homepages.

You can see all of them if you Click on Content in the Admin Toolbar
Or visit https://www.brynmawr.edu/admin/content

Once there, select Content Type=Homepage and press the Filter button. If you are a Homepage Editor, you will only see Edit buttons next to the Homepages that you are allowed to edit.

The Homepage Content Type consists of Title, Hero carousel, and Flexible Content Items.

Here is the screen you see when creating a new Homepage. Notice that there is no URL alias specified. This only gets set when the page is to go live.
Title

This field doesn't display, but it is important to be able to identify each unique Homepage that is built.

Flexible Content Items

All the usual Flexible Content Items are available here, as well as the addition of three Homepage Specific ones: Slide: Homepage Hero, Homepage Feature: Large, Homepage Feature: Medium, Homepage Feature: Story.

You can read about all the Flexible Content Items, including how to reorder them, in these articles.
- **FLEX: Basic** - WYSIWYG (basic, links, tables, blockquotes and images & videos from library)
- **FLEX: Basic 2** - Accordion, Callout, Carousel, Contact, Embed, Social Media: Callout, Special List: Large, Special List: Small
- **FLEX: Intermediate A** - WYSIWYG (Video), Columns, Feature: Grid, Image Gallery, Image List
- **FLEX: Intermediate B** - People: List, Social Media: Connect, Feature: Large, Feature: Medium, Feature: Quote, Image Detail: Large
- **FLEX: Advanced** - Event 3-up, News 3-up, News & Contact, Story 1-up, Story 3-up, Announcement 4-up
- **FLEX: Special** - Slide: Homepage Hero, Homepage Feature: Large, Homepage Feature: Medium, Homepage Feature: Story, Course Code, Description Code, Donor List

---

**Slide: Homepage Hero**
If only one Hero slide is added, it will be just a hero image. Once you add a second one, it becomes a carousel.

Only a title and an image are required for a Hero slide.

If you would like a link on the slide, you can choose between a CTA or a Video Link.
Here is what each type of link looks like on the slide

**SUPERTITLE**

**Slide Title**

**READ MORE**
This Flexible Content Item is a great way to draw attention to an important program or feature. This Homepage Feature Large has one of the Feature Child block options overlaying the bottom portion of the image (see each example below). It has an image, title, intro field and space for up to three links.

- **Main List Item**
NOTE: These things will be displayed under a Detail Title heading

You are able to customize the Detail Title heading that appears, by default, as “The Details” despite no text being in the field.

To customize this heading, please type a new heading into the Detail Title field, up to 25 characters. It will appear in the display if you use either Additional List items or a Main List in your Feature.
Here is how it looks with the Main List and the Additional List Item list

You can also have a quote (Feature Child: Quote), statistic (Feature Child: Statistic), caption (Feature Child: Special Caption) or link to a video (Feature Child: Video) displayed prominently.
Once you have a Feature Child option filled in, you are able to remove it if you want to change what you use there. Simply click the three dots on the right of that item and select Remove. Then you can decide to use a different option. Please note that once you remove it, you would have to create it from scratch if the removal was accidental.

Homepage Feature: Medium

This Flexible Content Item is a great way to draw attention to an important program or feature. This Homepage Feature Medium has one of the Feature Child block options overlaying the bottom portion of the image (see each example below). It has an image, title, intro field and space for up to three links.

- Feature Child: Main List Item

  ![Main List Item Form](image)

  - URL
  - Link text
  - Main List Item: Description

  Both Main List Item Link and Main List Item Description are required.

- Feature Child: Dropdown. Here is the form for the Dropdown, where you can add up to 5 items

  ![Dropdown Form](image)
NOTE: These things will be displayed under the Detail Title heading
You are able to customize the Detail Title heading that appears, by default, as “The Details” despite no text being in the field.

To customize this heading, please type a new heading into the Detail Title field, up to 25 characters. It will appear in the display if you use either Additional List items or a Main List in your Feature.

Here is how it looks with the Main List and a drop down both closed and expanded

This Flexible Content Item has a few more fields than a typical Flexible Content Item Story 1-up. This allows you to really feature a story and add extra links and text to it.

Here we see the fields available: Heading, Introduction, CTA, story, story title (this is something like Academic Excellence, to help promote certain categories), quote alignment, a The Details section that helps you provide more links and additional text to further enhance this content item.
You are able to customize the Detail Title heading that appears, by default, as “The Details” despite no text being in the field.

To customize this heading, please type a new heading into the Detail Title field, up to 25 characters. It will appear in the display if you use either Additional List items or a Main List in your Feature.
NOTE: These things will be displayed under the Detail Title heading
Here are how all these fields look in the display:

---

OLIVIA MCAULEY

"I study the orbital changes of the stars by looking at the action angles. I am currently in the process of adding a cluster to my simulation that is located at this Lagrange point and putting the cluster in different environments to see what happens to the orbits of these stars."
