Other sharing options

Site or group-level admins in LinkedIn Learning can "recommend" collections to specific groups of people with Bryn Mawr LinkedIn Learning accounts and (optionally) assign due dates for viewing it.

Recommending or assigning a collection to a group:

- Adds it to the **Assigned** or **Recommended by Bryn Mawr College** sections of group member's **My Learning** pages
- Sends group members an email notification about the recommendation
- Enables admins to pull a viewing report on their engagement with the collection

If you think this option could be useful for your course or program, request a Blended Learning

consultation to discuss options with an educational technology specialist.
