This article explains how to create, upload and edit audio and video recordings in Panopto using your web browser. Panopto also has a desktop recording app (see Panopto: Record using the app for Windows or Mac $_{\square}$), but the browser recording app, called Panopto Capture, may offer a better experience on Mac computers.

Before you begin, you may need:

- · A device with a web browser (and a microphone and camera if you want to capture audio or video)
- A high-speed Internet connection
- An account on Bryn Mawr's Panopto site

Create a video using Panopto Capture

Upload a video

Edit a video
