The Zoom-Panopto integration ensures that all Zoom meetings you record to the cloud are automatically uploaded to Panopto for longer-term access and storage:

- Meetings scheduled using the Zoom activity in a Moodle course will be uploaded to that course's Panopto folder.
- All other meetings will be uploaded to the Meeting Recordings sub-folder of your personal Panopto folder (My Folder), as shown below.
- Any live captions generated during the meeting will be saved and added to the recording as closed captions.

See also:

Once the recordings are uploaded to Panopto, you can manage or edit them as you would any other recording stored on Panopto:

- Copy or Move Panopto recordings
- Share Panopto recordings
- Edit Panopto recordings
- Captioning in Panopto

Questions?

If you have any additional questions or problems, don't hesitate to reach out to the Help Desk!
