Panopto: Training and learning resources

Last Modified on 07/18/2024 12:28 pm EDT

Panopto is the College's primary **lecture capture** and **video streaming library** service. We have created help articles for the most common Panopto tasks, but Panopto also provides several training options as part of our subscription:

- **Live training webinars and office hours** ⧉**.** Panopto trainers host beginner-level webinars twice a month. They also hold periodic advanced-level webinars and weekly drop-in office hours, where you can learn and get questions answered by experts. These are open to anyone who has a Panopto account on our license. Please note you will need to sign into support.panopto.com ⧉ with your Bryn Mawr Panopto credentials to access these sessions.
- **Pre-recorded video tutorials** ⧉**.** Short video demos on how to view recordings and how to create, edit, manage and share them.
- **Documentation** ⧉ **(help articles).** Illustrated, step-by-step walkthroughs on how to view recordings and how to create, edit, manage and share them. Instructions are broken down where relevant by device (Windows, Mac, Linux, iOS, Android) and recording software used (Panopto Capture or a desktop application).
- **LinkedIn Learning** ⧉ has course materials related to general video recording, including some specifically related to education and instructional videos. (See LinkedIn Learning: Overview if you need to set up your account).
