

Moodle: Link to McGraw-Hill

Last Modified on 01/04/2024 3:39 pm EST

Instructors can link their Moodle course to McGraw-Hill's online learning platform, **Connect**. **Connect** contains a library of online textbooks and integrated activities you can use to enhance your course offerings. To access **Connect** content, create a course on McGraw-Hill's site. From there, you can use Moodle's **External Tool** activity to share it with students.

Before you start, you may need access to the following:

- an **Instructor of Record** or **Other Editing Teacher** role in a Moodle course
- an Instructor account for McGraw-Hill Connect. You can create one at [this site](#). Please use your Bryn Mawr email when creating the account.

Set Up a Connect course

1. Go to <https://www.mheducation.com/> and click **Sign in**.
2. From the menu that opens, select **Connect**.
3. Sign into your account, which should be connected to your Bryn Mawr email. Please go to [this site](#) if you need to create an account.
4. You will be taken to the **My Courses** page of your **Connect** account. Select **Add Course**.
5. On the **Find a title** menu, use the **Search title, author, or subject** bar to look for virtual textbooks. Select the book you want to use in your course.
6. On the next page, provide a **Course Name**. We recommend using the same one as your Moodle course. Select **US/Eastern** as your time zone. You can also provide **Registration dates** and a **Section Name**.
7. When finished, click **Create Course**.

Add your Connect course to Moodle

1. Toggle the **Edit Mode** button (if you haven't already).
2. Click **+ Add an activity or resource** in the section where you want to add the activity.
3. Select **External Tool** from the activity menu.
4. Provide a relevant **Activity name**.
5. From the **Preconfigured tool** menu, select **McGraw-Hill LTIA**.
6. Select **Save and return to course**.
7. You'll now be back on your Moodle course page. Find the activity you just created and open it.

8. This will open any textbooks you've attached to your Connect account. Select the one that's relevant to your Moodle course > **Connect**.
9. On the next screen, select **I want this for my students > Adopt Connect**.
10. On the next screen, select "A section in an **existing** Connect course". Then, pair with the Connect course you previously created.
