

LinkedIn Learning: Add content to a Moodle course

Last Modified on 08/25/2025 11:29 am EDT

LinkedIn Learning is a library of widespread instructional videos with content available under the latest business, technology, and creative based skills. Courses are recommended to you based on personal interests and designed to successfully encourage your learning. Access to this platform is provided by the college.

As a part of this access, LinkedIn Learning is able to successfully be integrated into Moodle. This means that access to the platform can be provided from inside Moodle, and can be used to provide integral or supplemental class materials.

Before you start, you may need access to the following:

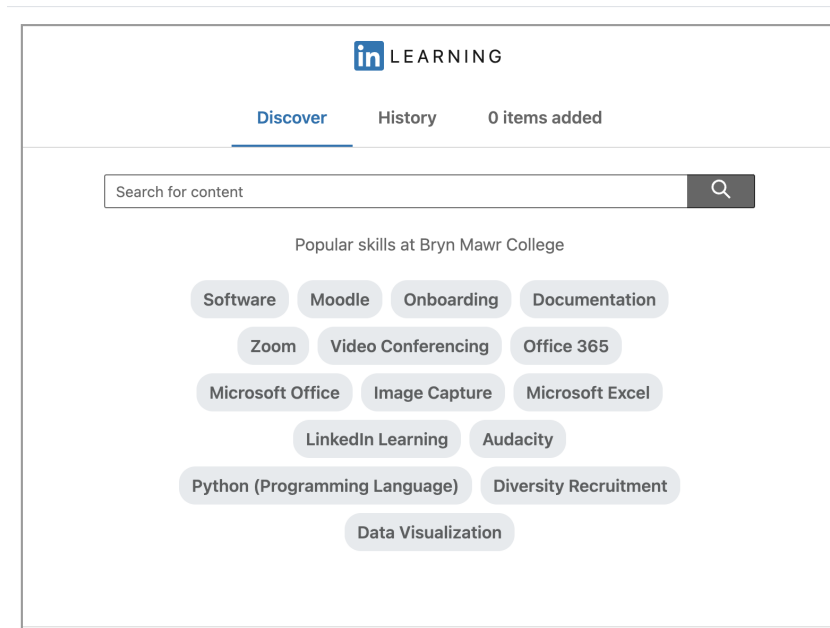

- An **Instructor of record** or **Other editing teacher** role in a Moodle course
- A LinkedIn Learning account. If you haven't signed up for LinkedIn Learning yet, visit <https://www.linkedin.com/learning> and sign in with your college credentials

Setting up LinkedIn Learning in Moodle

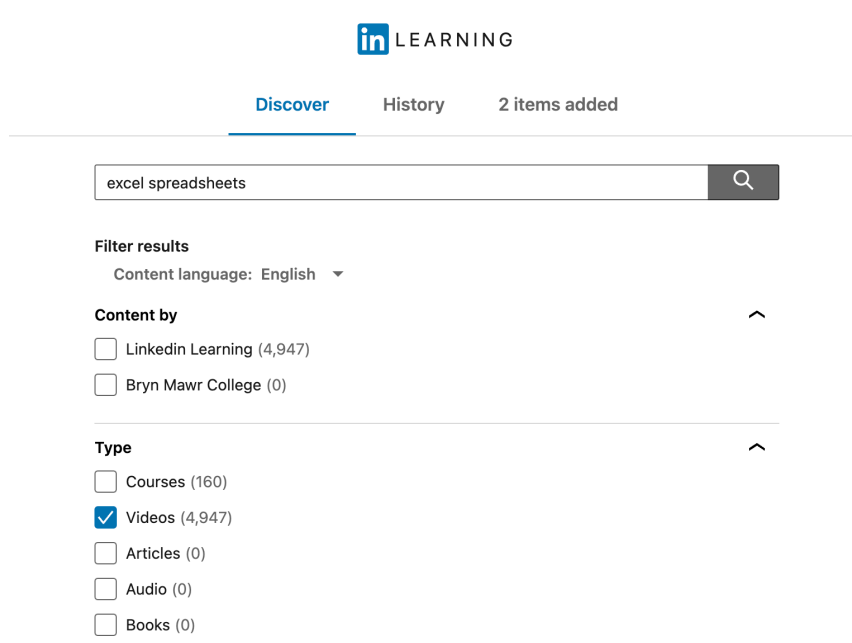

1. Log into Moodle and open your course.
2. On your Moodle course page, toggle the **Edit Mode** switch on.
3. Go to the section where you want to place the video and click **+Add an activity or resource**.
4. Choose the activity that is labeled as **LinkedIn Learning**.
5. Click the **Select Content** button. This will open a pop-up LinkedIn Learning search window.

Note: If the window doesn't pop up or is blank, your web browser may be blocking pop-ups. Follow your browser's instructions for allowing pop-ups on <https://moodle.brynmawr.edu>.

6. Click on the search bar labeled **Search for Content** and type in a keyword or phrase relevant for the content of your course.

7. Results should appear as you type your keyword or phrase. You can also **filter results** if you're looking for content that may have specific software, length, type, etc. You will need to scroll past these options to find the content.

9. Once you find the content that you want to be added to your Moodle course, click the **Add** button. You can add multiple courses or videos into a single Moodle course.

Content by ^

☐ LinkedIn Learning (4,947)

☐ Bryn Mawr College (0)

Type ^

☐ Courses (160)

☒ Videos (4,947)

☐ Articles (0)

☐ Audio (0)

☐ Books (0)

11. LinkedIn Learning will review the content that you wish to include in your Moodle course. Once you are sure you have the content you need, scroll down and click the **Confirm** button.
12. The pop out page will close and the Moodle will give a review of the content that has been added to your Moodle course page.

Adding a new External tool to Topic 15

The following items will be added to your course:

- **Create an Excel table** *Graded activity (Maximum grade: 100)*
- **Create citations and bibliographies** *Graded activity (Maximum grade: 100)*

Save and return to course

Cancel

13. Moodle will automatically add the content in as a **Graded Activity** in Moodle. If you've added multiple pieces of Linked Learning content, they'll be added as separate activities. If you wish for the content not to be added in as a **Graded Activity** :
 - Find the activity in the body of your Moodle course
 - Click the **Edit** drop-down menu (three stacked dots) and select **Edit Settings**.
 - Scroll down to **Grade** and change the type from **Point** to **None**
14. Students will now be able to click on the activity and interact with the LinkedIn Learning course or video. If they haven't before, they will need to make sure they are signed into LinkedIn Learning ahead of time using the instructions [here](#) .
