

EBSCOhost: Add search resources to your Moodle course

Last Modified on 10/22/2025 4:22 pm EDT

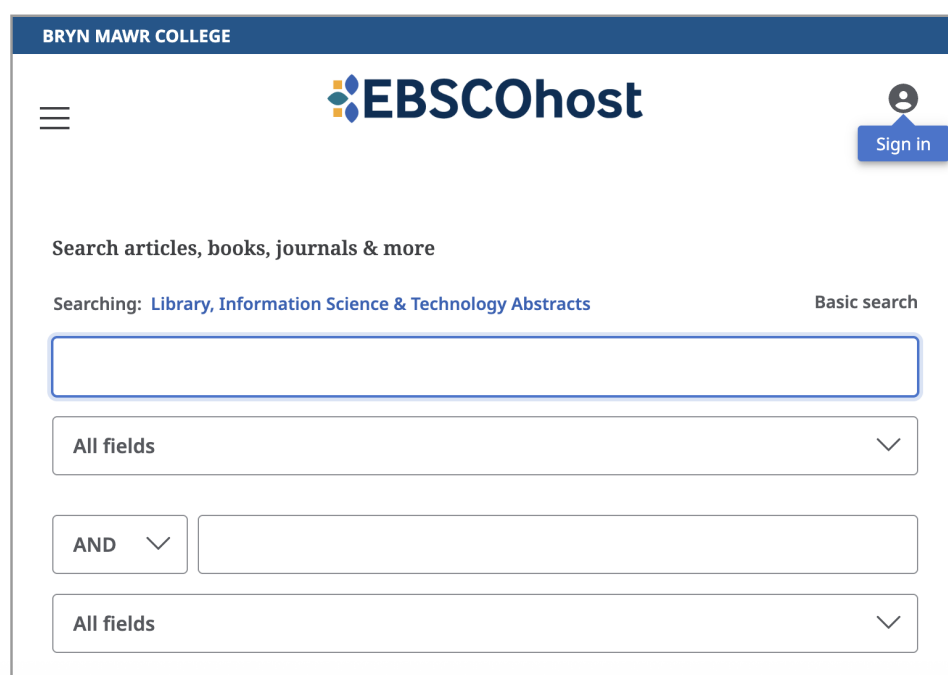

EBSCOhost provides access to a range of scholarly resources, including reference databases, academic journals, and peer-reviewed articles. This article explains how you can use EBSCOhost to share academic content with students in your Moodle classes.

Before you start, you will need:

- An **Instructor of record** or **Non-editing teacher role** in a Bryn Mawr Moodle course

Add Ebscohost resources to Moodle

1. Log into your Moodle course and switch **Edit Mode** on.
2. Click **+ Add content** > **Add an activity or resource** in the appropriate section or subsection.
3. A pop-menu will open. Find **EBSCOhost** and select it.
4. A new page will open that's titled **Add External Tool**. Click the **Select Content** button.
5. A new pop-up menu will open showing EBSCOhost's search menu. Use it to search for content relevant to your course.

BRYN MAWR COLLEGE

EBSCOhost

Search articles, books, journals & more

Searching: [Library, Information Science & Technology Abstracts](#) Basic search

All fields

AND

All fields

1. Once you've found the content you're looking for, click the **Add item** button.
2. The pop-up menu will disappear and you'll return to the **Add External Tool** page. The title of the resource you selected in EBSCOhost will now appear in the **Activity name** field.
3. Click **Save and return to course** or **Click and display**.

A link to the resource in EBSCOhost will now appear in your desired section or subsection.

Questions?

If you have any additional questions or problems, don't hesitate to reach out to the **Help Desk**!
